

# Error Analysis

Maintain this error analysis chart so that you can become aware of the patterns of errors you are making. This chart is easily adaptable to science, writing, spelling, and the study of foreign languages. Use the variables identified in a task analysis or provided by your teacher.

List types of errors above the columns in the chart.

Date	Assignment/ Assessment																		

**Directions:**  
For each assignment or assessment completed, write the name and date of the assignment or assessment on the lines to the left of the grid. Identify the type of errors made and check the appropriate boxes. At the end of each unit, identify the pattern of errors.
